Composition

Varied granite sourced locally from fabrication remnants.
ASTM Standard C615 Standard specification for granite
dimension stone.

Length

4" - 9" ($\pm 0.25"$)

Height

3cm (± 2 mm)

Nominal Thickness

$\frac{1}{4}" - \frac{3}{4}"$

Weight per Square Foot

8 lbs. (± 1 lbs)

Colors

Varied by Blend Style. See Design Catalog.

3.0 INSTALLATION REQUIREMENTS

Thin individual stone application shall require no mechanical support or anchorage. The stone shall be back buttered to achieve, as close as practical, 100% adhesive contact between stone and backup. Wedge spacers are temporarily required to maintain horizontal level. Installation on interior and exterior vertical surfaces are fully reliant upon the backup and substrate for performance. Decorative stone not for structural applications. Refer to Installation Guide for complete instructions.
